Here is more of what our customers have to say

Eileen has a real gift for blending how our business operates with how QuickBooks works. She does all this and keeps our accountant happy.

PC – Mt. Sinai, NY

My computer crashed. I had a backup of QuickBooks on three small disks. My tech support guy couldn't restore my QuickBooks data file to my new computer. I called Eileen who got the job done with no problem.

EG – Moriches, NY

We own a storefront that is a franchise. The franchise chain provided instructions how to use QuickBooks but we didn't understand them and no one could explain them to us. We called Eileen who helped us decipher what we had to do. Now we can provide our monthly reports to the franchise chain on time.

LJ – Smithtown, NY

I used to invoice my customers in Excel. I had trouble keeping up with who owed me what. Eileen showed me how to create professional detailed customer invoices in QuickBooks. Now I know who owes me money. I can even generate a receivables collection report in a matter of seconds. This feature is great when money is tight and I need to drum up some cash.

MW – Hauppauge, NY
